PROJECTS

SkillUp (01/2023 - 05/2023)

- The main function of the website is to register students for our training institute.
- Provided students with login credentials (ID and password) to access the platform.
- Enabled students to watch recordings of lectures and classes according to their enrolled courses.
- Built the website using the MERN stack (MongoDB, Express.js, React.js, Node.js).

Real Estate Management System (08/2022 - 11/2022)

- created a website where buyer could buy and seller could sell the house.

Car Selling Website (04/2020 - 06/2020)

- created a website for a car company which contains all the necessary details of cars.

Hospital Management System (05/2019 - 06/2019)

- created a database for hospital which manage all the data of the hospital.
